

## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 23-32 is the inclusion of the limitation of when the discriminator determines that the kind of device is not determined when the storing portion does not store the information indicating the kind of ink, and wherein when the discriminator discriminates that the kind of device is not determined, the communication controller prohibits the communicating means from communicating with the information processing apparatus. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 33-38 is the inclusion of the method step of discriminating that the kind of device is not determined when the storing portion does not store the information indicating the kind of ink, and wherein when the discriminating step discriminates that the kind of device is not determined, the controlling step prohibits the communicating means from communicating with the information processing apparatus. It is this step found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
